

OUTREACH FOR NUCLEAR SCIENCE AND ENGINEERING—TOOLS AND STRATEGIES IN THE PRECOLLEGE SPACE—PANEL

Session Organizer: Lisa M. Marshall (NCSU)

The talent pool for nuclear engineers starts in the precollege space. This panel discussion will address strategies and tools available to spark and nurture scientists and engineers within the field. How do we grow the pool of interested students? What role does ANS play, especially with the recent launch of “Navigating Nuclear”? This session will discuss tried and new approaches to reach educators and students.

Panelists: Eric Loewen (*GE-Hitachi*)
Alyse Scurlock (*Duke Energy*)
Mary Lou Dunzik-Gougar (*Idaho State Univ*)
Lisa Marshall (*NCSU*)
